## Duvets & Pillows

Luxury Duvets and Pillows Collection wrap around you snugly and softly. Because only the best down is chosen for our products. It is particularly cuddly and provides thermal insulation and temperature regulation like almost no other material. Just the right thing for high expectations and for you!

The selected down is particularly elastic and gives outstanding support and loft. Its ability to maximise thermal insulation despite its light weight makes down one of the most attractive natural fillings for high-quality bedding products. Its three-dimensional structure enables down to enclose a large amount of air and thereby offer ideal thermal insulation. Down makes the sleeping climate extremely pleasant while absorbing moisture from perspiration and releasing it into the surrounding air.

The queen of all down is eiderdown. Icelandic eider ducks pad their nests with it to protect against the icy wind and cold. After the young have hatched, the eiderdown is collected manually from the nest by eiderdown farmers. Eiderdown is considered to be the best filling material. It is brown in colour and larger, finer and denser than conventional down. Enjoy the exquisite properties of this high-quality filling material.

The cover fabric of almost all Luxury Collection down duvets and pillows is treated with a medicott® finishing and Offers people with allergies special advantages: when they are properly cared for, they prevent dust mites, mould and spores from growing and spreading.

Luxury Duvets and Pillows Collection for an unsurpassed sleeping experience that you will dream of!

#### 4 Seasons programme "Vivaldi"

With these first-class duvets, Luxury Collection Vivaldi offers combinations for all seasons and for all individual sleeping requirements.

**The system:** Different individual light, medium and warm duvets can be combined with each other by means of press studs. For example, a light duvet can be combined with a medium duvet to produce bedding that is warm enough for the wintertime. A variety of combinations can be tailored to individual sleeping preferences for all seasons. Of course, all of the duvets can be obtained individually.

**Cover fabric:** Ultrafine nanobatist, 100% cotton, medicott® fabric finishing  
**Colour:** White  
**Filling:** White Siberian new goose down, class I, DIN EN 12934, 100% down  
**Stitching:** With press studs

Washable up to 60°C (in washing machines with a capacity of 7 kg or larger, wash with wool detergent, tumble dry)

*The finest duvets and pillows in the world*

### Duvet Vivaldi Light

**Stitching:** Duvet 12 x 15 squares, with press studs  
**Thermal insulation:** Light ● ● ● ● ●

Washable up to 60°C (in washing machines with a cap acity of 7 kg or larger, wash with wool detergent, tumble dry)

### Duvet Vivaldi Medium

**Stitching:** Cassette 5 x 6 squares, with press studs  
**Thermal insulation:** Medium ● ● ● ● ●

Washable up to 60°C (in washing machines with a cap acity of 7 kg or larger, wash with wool detergent, tumble dry)

*The finest duvets and pillows in the world*

---

## Duvet Vivaldi Warm

**Stitching:** Cassette 4 x 6 squares, with press studs  
**Thermal insulation:** Warm ●●●●●

Washable up to 60°C (in washing machines with a capacity of 7 kg or larger, wash with wool detergent, tumble dry)

## Eiderdown duvet Arctic

Nature has created an incredible and unique insulation material in the form of Icelandic eiderdown. Eiderdown is very large but finer and denser than all other types of down. It forms a type of fleece that insulates like no other natural or artificial material.

The eider ducks brave icy temperatures and powerful polar storms with their coat. They use their unique breast and stomach down to protect the brood from the cold Icelandic climate. The females naturally lose a part of their down before breeding and carefully collect it and fill their nest with it. The chicks hatch and then leave the nest. The eider duck farmers then carefully collect the valuable down without disturbing the birds in their natural environment. This down is then used in the uniquely snug Luxury Collection.

**Cover fabric:** Due to the special properties of eiderdown, we do not use the conventional cover fabrics that keep the down from escaping. Eiderdown can be held by fine natural silk fabrics. This also promotes the exchange of heat and breathability of eiderdown duvets.

**Design:** To perfectly distribute the filling, we weigh the filling beforehand for each square and carefully fill the squares of an eiderdown duvet by hand.

<b>Stitching:</b>	Quilted squares
<b>Thermal insulation:</b>	Extra Warm ●●●●

*The finest duvets and pillows in the world*

## Down duvet Arctic Dual

Two stitching principles were combined in this duvet that generate pleasant and warm sleeping comfort: The Dual bedding principle and body zone stitching with insulating edging:

With the dual bedding principle, two individual blankets are connected to each other at the edge. In the middle of the duvet, an insulating cavity forms and retains additional warmth. This produces a modern, light duvet with a lightweight filling and - at the same time - a high level of thermal insulation.

The stitching follows the contours of the body making it particularly cosy around the shoulder and foot areas. The peripheral stitched edging perfectly seals off the duvet from the surrounding air and produces a sleeping cavity with uniform thermal retention.

<b>Cover fabric:</b>	Ultrafine nanobatist, 100% cotton, medicott® fabric finishing
<b>Colour:</b>	White
<b>Filling:</b>	White Siberian new goose down, class I, DIN EN 12934, 100% down
<b>Stitching:</b>	Body zone stitching with divided edging
<b>Thermal insulation:</b>	Extra Warm ●●●●●

Washable up to 60°C (in washing machines with a capacity of 7 kg or larger, wash with wool detergent, tumble dry)

*The finest duvets and pillows in the world*

## Down duvet Comfort

A classic bedding design with a new appearance. The cassette design with 6 x 8 squares and incorporated inner baffles ensures an even distribution of the high-quality filling. The regular shape of the duvet is retained, and cold zones cannot develop.

<b>Cover fabric:</b>	Ultrafine nanobatist, 100% cotton, medicott® fabric finishing
<b>Colour:</b>	White
<b>Filling:</b>	White Siberian new goose down, class I, DIN EN 12934, 100% down
<b>Stitching:</b>	Cassette 6 x 8 squares
<b>Thermal insulation:</b>	Warm ●●●●●

Washable up to 60°C (in washing machines with a capacity of 7 kg or larger, wash with wool detergent, tumble dry)

*The finest duvets and pillows in the world*

## Down duvet Polar

A modern look to a classic cassette duvet. The well-designed outer baffle additionally reinforces the supportive function of the inner baffles. The high-quality filling is generously distributed up to the edge of the duvet and can fully expand within the squares. This means cold zones cannot develop. With a layout of 5 x 7 squares, the duvet perfectly encloses the body of the sleeping individual.

<b>Cover fabric:</b>	Ultrafine nanobatist, 100% cotton, medicott® fabric finishing
<b>Colour:</b>	White
<b>Filling:</b>	White Siberian new goose down, class I, DIN EN 12934, 100% down
<b>Stitching:</b>	Outer and inner baffles (10 cm), Cassette 5 x 7 squares
<b>Thermal insulation:</b>	Extra Warm ●●●●●

Washable up to 60°C (in washing machines with a capacity of 7 kg or larger, wash with wool detergent, tumble dry)

### Down pillow Polar

A pillow with a touch of luxury. The peripheral outer baffle gives the pillow an elegant shape and also provides excellent support and loft.

**Cover fabric:** Ultrafine nanobatist, 100% cotton, medicott® fabric finishing  
**Colour:** White  
**Filling:** White Siberian new goose down, class I, DIN EN 12934, 100% down  
**Stitching:** With outside baffle

Washable up to 60°C (in washing machines with a capacity of 7 kg or larger, wash with wool detergent, tumble dry)

*The finest duvets and pillows in the world*

### Neck support pillow

The neck support pillow offering extra comfort: The pillow is designed in a similar way to a three-chamber pillow. The outer chambers are filled with high quality down which gives the pillow its remarkable softness. The centre of the pillow consists of an ergonomically shaped core of viscoelastic foam that supports your head and neck in a manner perfectly tailored to your anatomy and, in contrast to other conventional neck support pillows, both sides can be used. The special comfort advantage: The pillow effectively provides support while remaining cuddly so that you can sleep in comfort.

<b>Cover fabric:</b>	Fine twill, 100 % cotton, medicott® fabric finishing
<b>Colour:</b>	White decorative seam
<b>Filling:</b>	Outer cover of white Siberian new goose down and feathers, class I, DIN EN 12934 90% down / 10% feathers
<b>Core:</b>	Viscoelastic foam core (density 50 kg/m <sup>3</sup> )
<b>Stitching:</b>	With zipper

Washable up to 60°C (in washing machines with a capacity of 7 kg or larger, wash with wool detergent, tumble dry)  
PLEASE NOTE: The core must be removed before washing!

*Viscoelastic foam core offers good support for the head and neck areas.*
